For further information please contact:

Steve Beverley 0431 696 311

Shaun Elliott 0418 744 835

Paul Gibbs 0408 003 387

Preface

My main family consisted of Van Loons since 1994 (29 years) and they been very successful. I was extremely lucky to start with Titleist CTN 94 2788 as a youngster and unbelievably never looked back. Many flyers over that time purchased young VLs from myself and were quite successful. Throughout the period from 1991 to now I have successfully introduced other breeds, these include Van Den Bulck, Watson PIEDS, Janssen, Heremans, Van Dyck, Vandenabeele, Hereman Ceuster, Gaston Van De Wouwer

Most of this time I never raced due to work and family commitments, but bred teams for others to fly. People of note include Joe Caruana, Graham & Peter Duscha, Shaun Elliott and Paul Gibbs all have raced and been successful with my family of pigeons. Additionally they have performed very well in a number of one loft races. Even after my return to racing following my retirement I was lucky enough to perform reasonably well in such a short period. Unfortunately, due to health issues I must now dispose of all my pigeons and equipment.

Yours in the sport Steve Beverley.

Testimonial

I have known Steve Beverley for the past 29 years having first met while I was in Queensland to conduct a reduction sale of some of my own pigeons. Since then Steve and myself have become close friends having stayed at each other's homes when visiting interstate and talking regularly by phone.

Over the years since 1996 this friendship provided me with many gift pigeons off Steve's renowned Van Loon pigeons that are still today the basis of my family of pigeons, with many birds bred down off the original gift birds that are still breeding winners today at both club and Fed level.

Three of the top performances for myself include winning 2nd overall CCF All Age Derby 610 klms in 2003 against 249 flyers and 1,222 birds, 1st club Bird of the Year 2013 and 1st CCF Bird of the Year 2015.

Over the last 8 years I have not raced myself but concentrated on breeding race teams for fanciers in many parts of Australia with many good wins being reported each year, one such win was 1st place in the James Crawford Young Bird National in the SCF in 2022.

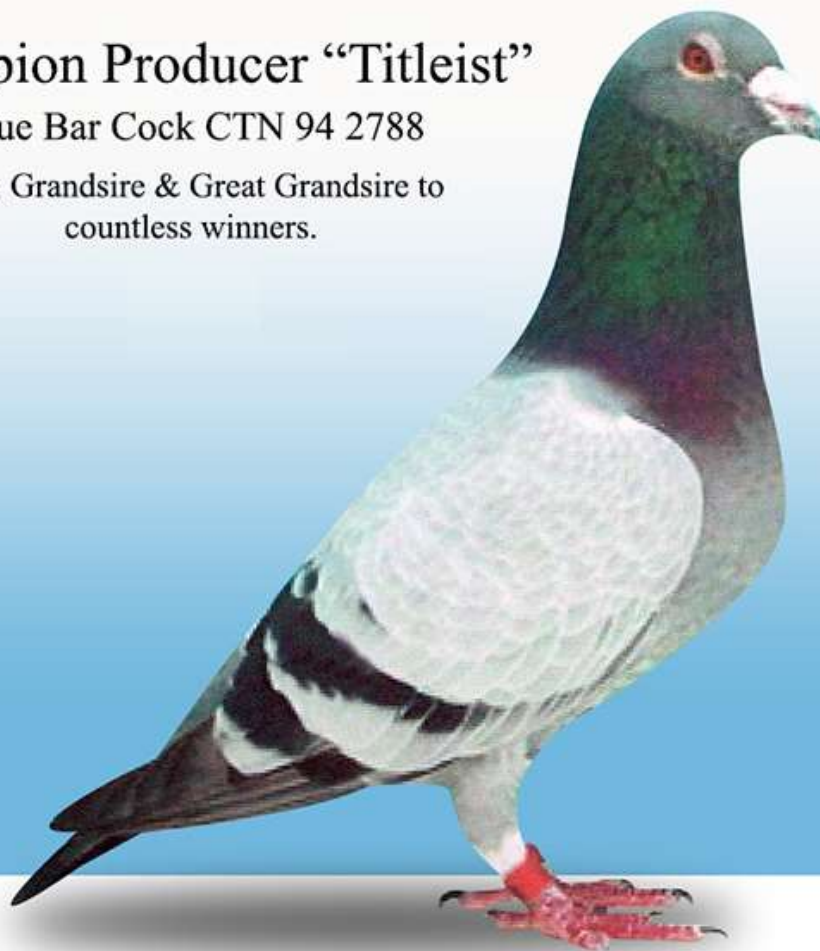

I cannot recommend these "Beverley Van Loons" high enough. They are line-bred back to the original 1982 Ray Hunt Van Loons and have performed for countless fanciers. Anyone wishing to improve their performances, especially from the middle distance events (200 to 600klms) would be well advised to attend this sale.

Paul Gibbs
