Preface

For health reasons Kevin needs to reduce the number of pigeons that he keeps.

This family of pigeons continues to produce top results in the QRPF and elsewhere particularly in the long races.

In the 2023 season pigeons from this loft bred 1st Fed Broken Hill 1200 klms as well as 5th Fed Cobar 800 klms.

Kevin's family of birds go back to the 1960's, which are mainly the old Brisbane long distance lines, although he is quick to point out that he considers them to be more all-round distance birds now that he has added Staf van Reets/Mueleman/Janssen crosses into them.

The pigeon "901" known as the Dykstra Cock has played a big part in the development of this family and along with his mate 10808 have bred 4 Open Fed winners. 901 is also the G'Sire of K Jorgensen's Broken Hill Fed winner in 2023.

There are several birds from this mating available in this sale including 10053 placed 2nd Fed Marlborough 600klms and 1st Fed St Lawrence Nat 680klms only two birds on the day and his brother 10052 placed 1st Fed Gladstone 450klms, both direct sons of 901 x 10808 the "Good Pair".
